

Environmental policy statement

TES 2000 Ltd. employs specialists to enhance the planning and management of its core activities these being possession management, track services including maintenance and renewals along with technical services. This is part of a continuing programme to build elite teams to meet the ever-growing demand for top quality safety professionals. TES 2000 Ltd recognises its responsibility to reduce any potential impacts on the environment from its activities and to contribute to environmental improvement.

In order to meet this commitment TES 2000 Ltd. will produce objectives and targets which will be regularly reviewed.

- TES 2000 Ltd will actively pursue the following aims:
- The organisation shall establish, implement and maintain a procedure to; identify and have access to the applicable legal and other requirements to which the organisation subscribes and relates to its environmental aspects.
- Promote reduction in the consumption of all materials and resources whilst encouraging re-use and recycling where practicable.
- Seek to obtain environmentally friendly materials and encourage the use of sustainable materials where possible.
- Continually strive to prevent pollution and reduce the level of harmful emissions.
- Ensure that employees are provided with the information and training required to implement and operate this policy.
- Commitment to continual improvement of environmental performance and conducting activities in an environmentally responsible manner.
- Ensure communication with all contractors / subcontractors to establish their environmental impact on works undertaken.

TES 2000 Ltd will achieve this through the implementation of an environmental management system and through commitment to ISO 14001 certification.
